**Program Description:** Moderate to severe acute pain is frequently undertreated and has potential to progress to chronic pain. A multimodal approach targeting receptors along ascending and descending pathways of pain signaling may be an effective strategy. This program discusses effective pain management barriers, inadequate management consequences, and suggestions to optimize analgesic therapy.

*This is a **non-CE** educational event. The opportunity to register for this event is available to AANP 24<sup>th</sup> National Conference registrants **only**.*

*The occurrence of this event at the AANP Conference **is not** an AANP product endorsement.*
